Speakers' Biographies

Dr. Sally Ann Lynch

Dr. Sally Ann Lynch is a consultant Clinical Geneticist at Our Lady's Hospital, Crumlin, Children's University Hospital, Temple Street, National Rare Diseases Office, MMUH.

Dr. Lynch's research interests are in rare diseases. Her group has had success in the identification of several rare disease genes and developed simple cost-effective genetic tests, which have been translated into the diagnostic laboratory. Dr. Lynch also has an interest in education using new technologies and has been involved in the development of a microsite, which contains information for use by Health care professionals on common genetic topics. Her group has developed twenty five animation videos on consanguinity, inheritance patterns and chromosomal translocations and inversions. The American College of Paediatrics uses one of the videos and a further two are used by Unique, the Rare chromosome support group (www.rarechromo.org). Dr. Lynch has been awarded two research grants recently, one to estimate the incidence of Rare Disorders in a cohort of children born in the year 2000 (from Temple street Foundation) and a second grant to review the cardiac variants identified in families seen with inherited cardiac disorders through the National Children's Research Centre (NCRC).

Prof. Chris Lynch

Professor Chris Lynch is a UCC BDS graduate (1999). Following time working in general practice and junior hospital posts, he commenced specialist training in Restorative Dentistry at Cork Dental Hospital in 2001. He completed his specialist training and passed the Intercollegiate Speciality Fellowship Examination in Restorative Dentistry (FDS Rest Dent) in

2006. He was appointed a Senior Lecturer and Consultant in Restorative Dentistry in Cardiff in 2006, where he has worked for the past 10+ years. Professor Lynch successfully defended his PhD, on aspects of the microstructural arrangements within human enamel, in 2007. He has published widely, including 140 papers on subjects such as dental education, clinical dentistry, treatment outcomes, pulp biology and dental materials. He has a special interest in minimally invasive dentistry, in particular, in the use of posterior composites, and has published a textbook "Successful Posterior Composites" as part of the Quintessentials series. While at Cardiff, Professor Lynch has served as Head of Prosthodontics teaching since 2011. He has also been Head of the Learning & Scholarship Department for 3.5 years. In 2013, he was promoted to a Readership by Cardiff University, and in 2015 he received a promotion to Professor of Restorative Dentistry & Dental Education. Since 2011, Professor Lynch has served as Editor-in-Chief of the Journal of Dentistry - the leading international journal in the field of restorative dentistry (impact factor 3.109). He has received recognitions such as the Award of Excellence in Dental Education from the Association for Dental Education in Europe (2014), British Endodontic Society Research Award (2010), British Dental Editors Forum Young Writers Award (2009) and the British Society for the Study of Prosthetic Dentistry Research Award (2004). He has been recognised with/awarded ad eundem Fellowships from the Academy of Dental Materials (FADM, 2015), the Faculty of General Dental Practice (FFGDP, 2013) and the American College of Dentists (FACD, 2011).

Speakers' Biographies

Dr. David Finucane

She taught part-time in the Dublin University Dental School for a number of years and is currently in Private Practice limited to Paediatric Dentistry in Galway City. She has a particular interest in the area of Prevention of oral disease in Children.

Ms. Catherine Waldron

Ms. Catherine Waldron lectures in dentistry and health promotion, with extensive clinical experience and enthusiasm for empowering patients to improve and maintain their oral health. She has a Masters by Research on the topic of Communication Skills in the dental setting and a Masters in Health Promotion on the topic of Smoking Cessation in the dental setting. She is currently studying full time for a PhD in Special Care Dentistry.

Dr. Lorna Dobbyn

Dr. Lorna Dobbyn-Ross is a Consultant Orthodontist at Galway University Hospitals. She qualified from Trinity College Dental School in 2001 where she was made a Trinity Scholar in 1998. Following house officer and specialist registrar posts at the Dental schools in Belfast and Dundee, she completed her MOrth at the Royal College of Surgeons in Edinburgh. An FTTA post followed at Glasgow Dental School where she completed the ISFE exam in Orthodontics leading to the FDS (Orth). She has completed a Master's degree on cleft outcomes and published a number of papers on this subject.

Dr. Paul McCabe

Dr. Paul McCabe is a registered Endodontic Specialist in the UK. He is a member of the Irish Dental Association, the Irish Endodontic Society and is a certified member of the European Society of Endodontology. He is based at the Oranhill Dental Suite, Old Limerick Rd., Oranmore. His practice is limited to endodontics.

Dr. Jane Renehan

Dr. Jane Renehan is an Independent Consultant in Dental Compliance and Regulation. Following qualification from Trinity College in 1980 Jane worked exclusively in the Public Dental Sector. In the mid-1990s she returned to the Dublin Dental University Hospital for 5 years taking up the full-time position of Lecturer in Dental Public Health while studying for both an M.Dent.Sc. and an MBA at the Smurfit Business School, UCD. In 2017, Jane left the HSE after almost 20 years in the role of Principal Dental Surgeon and established Dental Compliance Ltd which provides dental practices with a customised support service in complying with clinical regulations. Jane is one of three IDA delegates to the Council of European Dentists (CED) where she is Chairperson of the Working Group on Dental Materials and Medical Devices; she also serves on the Working Group for Infection Control and Waste Management. She is a Past President of the IDA HSE group and is a Trustee of the IDU. Jane's areas of compliance expertise include Radiation Protection, Infection Control, Practice Governance, Patient Safety and Quality Assurance. Her company's strategy is to simplify compliance for dental practices by taking the hassle out of regulation.
