

ROYAL COLLEGE OF SURGEONS IN IRELAND

FELLOW OF THE FACULTY OF DENTISTRY

ORAL MEDICINE

November 2018

Time allowed for this paper – THREE HOURS

Examiners: Dr. John Hamburger, Dr. Claire Healy

Please use a SEPARATE answer book for each question and ensure your examination number appears on every book.

***Please also use a separate answer book for each part of question 3.**

ANSWER ALL THREE QUESTIONS

1. Describe in detail the clinical manifestations of potentially malignant disorders of the oral mucosa, indicating their clinical risk features. Discuss the management of the various potentially malignant disorders of the oral mucosa that you cite.

2. Discuss in detail the management options in trigeminal neuralgia.

3. Write short notes on each of the following topics :
 - The oral manifestations of chronic graft versus host disease and their management.
 - The role of the multidisciplinary clinic in the practice of Oral Medicine.
 - The role of minor salivary gland biopsy and ultrasound scanning in the diagnosis of Sjögren's syndrome.
