**PART B**

**November 2018**

**Time allowed for this paper – THREE HOURS**

**Examiners: Dr. Mary Collins, Dr. Kate Farrell, Professor Gerry Kearns,  
Dr. John Marley, Dr. Peter Ramsay-Baggs**

**Please use a SEPARATE answer book for each question and ensure your examination number  
appears on every book.**

**\*Please also use a separate answer book for each part of question 2.**

**ANSWER ALL THREE QUESTIONS**

1. Discuss the diagnosis and investigation, pathogenesis and management of both the traditional and plunging ranulae. What complications can occur with treatment?
2. Discuss in detail the options available for the correction of mandibular retrusion. What complications may be associated with such methods of treatment?
3. Write short notes on each of the following topics :
  - Central Giant Cell lesions of the jaw
  - The management of recurrent oral ulceration
  - The evidence base for the management of Idiopathic Bells Palsy
  - Orofacial granulomatosis

**END OF PAPER**
